

Vi è qualcosa di più di un collegamento verbale tra le parole comune, comunità, comunicazione. Gli esseri umani vivono in comunità in virtù delle cose che hanno in comune e la comunicazione è il modo con cui arrivano ad avere delle cose in comune.....il consenso richiede comunicazione.

Votate i migliori articoli del 2008

In questo numero della newsletter trovate **tutti gli articoli pubblicati nel 2008** su riviste recensite e con impact factor. Chiediamo ai ricercatori stessi di scegliere i **3 migliori articoli del 2008**. A tal fine è stata preventivamente identificata una lista di 36 articoli (numerati e in grassetto) che rispondono ai seguenti criteri: 1. articoli in extenso e/o lettera con dati originali 2. primo o ultimo autore del Burlo. 3. IF $n \geq 3$.

Tra questi potrete sceglierne 3 inviando - entro il 28 febbraio- una mail a juli@burlo.trieste.it o vecchi@burlo.trieste.it con oggetto "miglior articolo" e indicando semplicemente i numeri dei tre articoli scelti (es: 1,12,11). I criteri guida nella scelta dovranno far riferimento soprattutto a originalità e potenziale trasferibilità nella pratica.

I 3 migliori articoli 2008 saranno segnalati sia con un comunicato stampa che durante la presentazione ufficiale del report 2008 delle attività scientifiche del Burlo.
